

Chap. 700
#78-2106

5 JUN 1978

MEMORANDUM FOR: Assistant for Information, DDA

FROM: Robert W. Gambino
Director of Security

SUBJECT: Bill S.2707

REFERENCE: Routing and Record Sheet from AI/DDA
dated 25 April 1978, same subject

1. The Office of Security has reviewed the subject proposed legislation and has comments.

2. The primary objections to the subject Bill are its lack of provision for the protection of sources and methods and the security of classified information. There are no provisions for the Board to conduct closed hearings in which classified or sensitive information might be discussed. As a result, a myriad of serious security problems are foreseen should the proposed subject legislation survive.

Robert W. Gambino
